The committee reviewed the proposal and found that the implemen-
tation plan was realistic, although the budget for mainte-
nance looked too optimistic for a project of this size. The board asked
the director to re-sign the contract before the co-op meeting.

The tokenizer complicates the cost of each evaluation in most settings. Our second model changes the length of generated answers only in English. The held-out set reduces rare entity names on the second benchmark. The sampling procedure stabilizes the cost of each evaluation under heavy noise.
